**Objet :** Submissions open for the UNESCO-MAB x Vivo "Capture the Future: Global Youth Storytelling Initiative for People and Culture"

**The "Capture the Future: Global Youth Storytelling Initiative for People and Nature" is accepting submissions from 5 March to 31 May 2026.**

Promoted by UNESCO in partnership with vivo, this initiative invites young photographers and visual storytellers (18–35) to submit original mobile photos or short videos documenting how communities and ecosystems coexist in one of the world's 784 Biosphere Reserves, from biodiversity conservation and climate adaptation to cultural traditions and sustainable innovation.

Selected participants will receive awards, including the opportunity to take part in an in-depth training camp on visual storytelling, as well as professional equipment and other recognitions to further support their work.

**Submissions open until 31 May 2026.**

**Do you have a question?**

All queries must be directed to [mab@unesco.org](mailto:mab@unesco.org). Please start the subject line of your email with **“Youth Visual Storytelling Initiative”** to facilitate prompt identification and response. Kindly be advised that this mailbox does not accept submissions.

We would be grateful if you could share this call within your networks, particularly with biosphere reserve managers, universities, research centres, youth groups, and local communities.
